Subject: Re: permit for Brown's Pond fishing pier

I think you would need a building permit through the Building Department; I cc'd Annette Derrick, the Building Official.

I also think we should check with the Valley County P&Z Commission to determine if a conditional use permit is required. The determination would be if it was a change in use or a nonconforming grandfathered use.

We can ask them on October 8.

Subject: permit for Brown's Pond fishing pier

Hi Cynda and Lori.

I spoke with someone at your office a month or so ago about whether or not IDFG would need to garner any sort of county permits for building a fishing pier out at Brown's Pond (Airport Pond) in McCall – Owned by Mike Deboer. There are two options we're thinking of (photos attached). One is a pier design and the other is a backfilled eco-block platform design.

Could you please let me know if either (or both) of these options would require county permits? And if so, could you please send me info on the permit(s) I'll need to apply for?
